Installation instructions for the tray using lugs:

The installation process is extremely intuitive, it is enough:

1. Place two lugs in the dedicated holes located at the bottom of the tray, and then attach the tray with the lugs to the edge of the tray.
2. The final step is a simple pressing of the lugs into the body of the tray, ensuring a stable and secure fastening.

Such a solution not only saves the installer's time, but also increases the precision and safety of the installation, eliminating the need for additional tools or complicated installation techniques.
